

# CHEAPER OPTION

We are a local family owned civil construction company operating for over 50 years in the Mildura area.

We offer the only waste materials (concrete, brick and asphalt) recycling facility in the district. This is an environmentally friendly and cheaper option. Materials are processed / recycled into road base and aggregates; A full range of limestone and recycled quarry materials are also available for sale.

As licensed demolition contractors in Vic & NSW and with our extensive fleet of plant and equipment, we can handle all jobs big and small. We also offer a waste concrete removal service.

Call us today for a free quote (03) 5021 2249. Terms and conditions apply.

### TERMS AND CONDITIONS

All commercial loads are weighed on entry to the site (unless under prior agreement with Management). Car Trailers are charged by the load. Mixed loads are defined as containing more than one material; any mixture of concrete, brick, asphalt and or clean fill. All loads will be defined at the discretion of the gate operator. All materials entering site will be rigorously inspected on entry and during the unloading process. No unauthorised materials are to enter site, NO asbestos whatsoever will be tolerated. In the case of asbestos being found, the entire load will be treated as contaminated and will be charged at \$200 per tonne or load; Waters Excavations Pty Ltd will arrange disposal by a licensed company. A warning will be issued and you may be banned from entering the site if a second offence occurs. Other unauthorised materials include but not limited to: cement sheeting, plasterboard, plastic & general waste (1-2% tolerance). You may be rejected / banned from site if found bringing in any unauthorised items. Fines may apply. Payment is due immediately and prior to unloading unless a 30 day pre-approved account has been set up and approved, overdue accounts will incur fees. We accept cash or EFTPOS (1.25% Surcharge applies for all EFTPOS transactions). NO CASH IS KEPT ON THESE PREMISES OVERNIGHT. This site is under constant surveillance. For more information please ask our staff or visit our website [www.waterex.com.au](http://www.waterex.com.au).
